

Mildenhall Naturist Swimming Club

Journalists and Photographers

Adults

Nobody may be identified or identifiable in anything published as a result of this visit without their consent. There is much less prejudice than there used to be and most naturists are fairly relaxed about names being published but some have very good reason to be careful about who knows. Please respect peoples privacy.

Children

You are welcome to talk with the children but they are not to be identified, identifiable or photographed.

Photography

Photography requires the consent of the club, Forest Heath District Council, and everyone in the shot. People come to the swim in order to relax and cameras are intrusive so photo opportunities usually have to be a few minutes after the normal out of the water time or at a special session.

Children are not to be photographed under any circumstances.

The club will normally only give permission for photographs to appear in specified publication(s) or groups of publications.

Publications

I/we accept the above terms.

Name(s), signature(s) and date
